BEOORDELINGSCOMMISSIE:

Prof. Dr. D. Hoekstra

Prof. Dr. A.C. Kooijman

Prof. Dr. H. Kingma

# INDEX

## CHAPTER

1	General introduction	7
2	The vestibular organ of the guinea pig: anatomy and function.	11
3	The glycocalyx and stereociliary interconnections of the vestibular sensory epithelia of the guinea pig.	23
4	The vestibular evoked response to linear, alternating, acceleration pulses without acoustic masking as parameter of vestibular function.	31
5	Functional and anatomical alterations in the gentamicin–damaged vestibular system in the guinea pig.	41
6	Ultrastructural morphology of the guinea pig inner ear after systemic gentamicin application.	57
7	Histopathology of vestibular sensory epithelium after gentamicin induced injury in the guinea pig.	71
8	Injection of artificial endolymph in the guinea pig inner ear alters vestibular evoked potentials.	81
9	Summary and conclusions	93
10	Nederlandse samenvatting, curriculum vitae & dankwoord	101
